SUMMARY

I'm an excellent producer and an ardent protector of the creative process. I anticipate and participate. I am ultra-discreet. I give great phone. I have amazing initiative. I'm slightly quirky, usually witty, and totally intellectual. I read the trades and know who's who. I'm really good at finding the golden nugget in a pile of rocks. Motivating people to exceed is cool. I can crack open an idea like an egg and pitch with a flair. I wholeheartedly believe in collaboration, yet know when to take ball and run with it. I am excellent at detail. I am a voracious reader.
